SEANZ Reference (member 1)* and contact details	
SEANZ Reference (member 2)* and contact details	
I have read and agree to conform to the code of ethics	<input type="checkbox"/> Yes (tick box)

Notes:

***Sustaining and Corporate applicants must provide two references from current SEANZ members who support their application. The references should be either an individual SEANZ member or a director or principal of a member company**

1. **SEANZ** does not make the details of Individual Members public.
2. In order to keep our overheads down, we prefer to contact members using email. Please provide an email address if possible.
3. As part of the membership package, Corporate and Sustaining members will benefit from publication of their trading details on the **SEANZ** web site and literature. By ticking the box, **NONE** of your business details will be made public.

To ensure standards for renewable electricity system installations meet industry "best practice" competency levels, a Code of Ethics for designer, supplier and installer practitioners in the renewable electricity industry has been developed. A copy of the Code of Ethics will be sent to all members. A copy may be requested prior to membership from the Chairman of the Board.

Other – please elaborate			

Please provide additional information of your trading activities. E.g. types of renewable electricity sales/installations etc. Information will be taken into account when the Board discusses your application.

Individual Membership (\$100 + GST)

Please confirm that you are not trading in the renewable electricity industry by ticking this box.

For renewable electricity system owners and others interested in the development of renewable electricity, but not directly involved as a business selling or installing renewable electricity components or systems.

All membership applications are placed before the Board for approval. This meeting takes place near the beginning of each calendar month.

Membership fees are invoiced following membership approval notification by SEANZ.
